My child spends their time between 2-3 families, how do we complete the enrolment form?

We need the details of each household on a separate form. This also allows each household to have their own log-in details to school platforms such as Compass, and also meets Department of Education mandatory requirements. In some cases, children live 50:50 between 2 households, in this instance please decide which you would like nominated as the primary household. This is the home we contact first in case of emergency, financial statements are sent, etc. Enrolment forms are available on our website, through email requests – [mckinnon.ps@edumail.vic.gov.au](mailto:mckinnon.ps@edumail.vic.gov.au) or from the school office.

We live outside the zone, will we be offered a place?

The only guaranteed placements are for students who reside within the catchment boundary. We are surrounded by excellent Government schools and encourage you to visit your local school. Once you have visited and contacted your local school you are able to submit an expression of interest that the Principal Team will review.
